Work Experience

United States Marine Corps — Okinawa Japan, Darwin Australia

Data Systems Administrator — January 2019-July 2022

- Accounted for over $200,000 worth of computers, switches, routers, and telephony devices.
- Managed and secured enterprise-level IT systems, ensuring seamless operations for mission-critical communications.
- Supported Linux, Microsoft, and Windows-based environments with a focus on network integrity, and data security
- Architected virtual machines within VMware solutions such as ESXI and VSphere.
- Configured network devices such as layer 2 and 3 routers and switches.
- Implemented file sharing services, print services, and active directory services within servers
- Configured and maintained VOIP telephony services via Cisco Call Manager Express and Cisco Unified

United States Marine Corps — Okinawa Japan

Telecommunication information System Coordinator — April 2021 – Sep 2021

- Aligned and trained TISC staff and provided help desk services to Marines of MWCS-18.
- Ensured adherence to IT service management (ITSM) best practices and maintained high service standard
- Managing/Mentoring a team of TISC Clerks.
- Monitoring team performance and developing feedback reports for management.
- Communicating with clients and providing in-person/phone support.
- Troubleshooting technical issues pertaining to network devices and accounts.
- Supporting active directory, VOIP services, and account management.

Education

SUNY Albany — Albany, NY

Bachelor of Science in Cyber Security — June 2022- Present

Saratoga Central Catholic Highschool — Saratoga, NY

Diploma — May 2018

Certifications/Awards

Meritorious Mast (USMC) — Dec 2018

For stellar performance during training in Data Systems Administration placing him first out of 30 Marines, demonstrating above and beyond academic and technical experience

Meritorious Mast (USMC) — Feb 2022

For noteworthy performance of duty while serving as a member of Marine Wings Communications Squadron 18 during an exercise. Enabled communication services for Marine Fighter Attack Squadron 112 by installing, configuring, and maintaining switches, routers, and VOIP devices. Took initiative by assuming duties and responsibilities without tasking from superiors and displayed maturity and decisiveness

USMC Security Plus Certification — March 2019

USMC Networking Plus Certification — Feb 2021
